

LONICERA nitida 'MAIGRUN'

box honeysuckle 'Maigrun', Wilson's honeysuckle 'Maigrun'

Maintenance advice: At the end of winter, prune to the desired size. Another pruning is possible in September for the perfectly shape plants. Shorten its thin shoots in order to maintain a regular, compact and dense shape. Light or no pruning if you wish to have a more free shape. The pruning can stop the flower and fruit production that are inconspicuous anyway.

Botanical/Horticultural origin: China; horticultural selection

Use group: Shrubs

Height at 10 years: 1 m

Width at 10 years: 1 m

Growth: Fast

Fragrance: No

Exposure: Sun - Half shade

Evergreen/Deciduous:

Evergreen

Shape: rounded, ball, globe

Colour of leaves: Green

Colour of flowers: White

Soil type: Indifferent

Uses: Hedge, Tub/container, Topiary
