

MALUS domestica 'IDARED'

apple Idared

Maintenance advice: At the end of winter, cut off any incumbent branches, to ventilate and maintain a harmonious and balanced form. Shorten any branches too long at a young age and then every 4-5 years to rejuvenate. For trellised forms, in summer, reduce spring shoots by 2/3 in length, leaving 5-6 leaves per branch, and at the end of winter cut down any twigs of more than 15cm long, to just above the third bud from the base.

Botanical/Horticultural origin: Horticultural origin : breeder L. Werner, Idaho (US) 1935

Use group: Fruit Trees

Height at 10 years: 4 m

Width at 10 years: 3 m

Growth: Medium

Fragrance: No

Exposure: Full sun

Evergreen/Deciduous:
Deciduous

Shape: rigid, upright

Colour of leaves: Green

Colour of flowers:
White/pink

Soil type: Indifferent

Uses: Fruit tree, Free standing specimen,
