Large, juicy vine peaches with yellow flesh. Hardy and easy to grow.

- Maintenance advice:** Just before flowering, you can find and cut down the non flowering branches , leaving just 2-3 buds. Shorten other less flowering branches, to just above a leaf bud, to rejuvenate. Pinch the young shoots (break off between fingers while soft, or cut off, to shorten by about a half), all along the branches, to help floral buds to develop the following year.
- Botanical/Horticultural origin:** Horticultural origin ; breeders
- Use group:** Fruit Trees
- Height at 10 years:** 3 m
- Width at 10 years:** 3 m
- Growth:** Medium
- Fragrance:**

- Exposure:** Full sun
